

# Copernicus4GEOGLAM - In-Season Crop Mask - long rains season - Tanzania

**Legend**

- Crops
- Other landuse

This map shows the in-season Crop Mask for the 2021 long rains season in 3 districts in Tanzania (Dodoma, Manyara, Tanga), using a time-series of Sentinel-2 images between January 2021 and June 2021. The map is produced by TerraSphere and CLS under contract with Copernicus Global Land Service and the European Commission Joint Research Centre, in support to national and sub-national level agricultural monitoring systems in partner countries of the GEOGLAM initiative.
