

# Copernicus4GEOGLAM - End-of-Season Crop Mask - short rains season - Tanzania

## Legend

- Crops
- Other landuse

This map shows the end-of-season Crop Mask for the 2021-2022 short rains season in 2 districts in Tanzania (Manyara & Tanga), using a time-series of Sentinel-2 images between September 2021 and March 2022. The map is produced by TerraSphere and CLS under contract with Copernicus Global Land Service and the European Commission Joint Research Centre, in support to national and sub-national level agricultural monitoring systems in partner countries of the GEOGLAM initiative.
