Legend

Other landuse

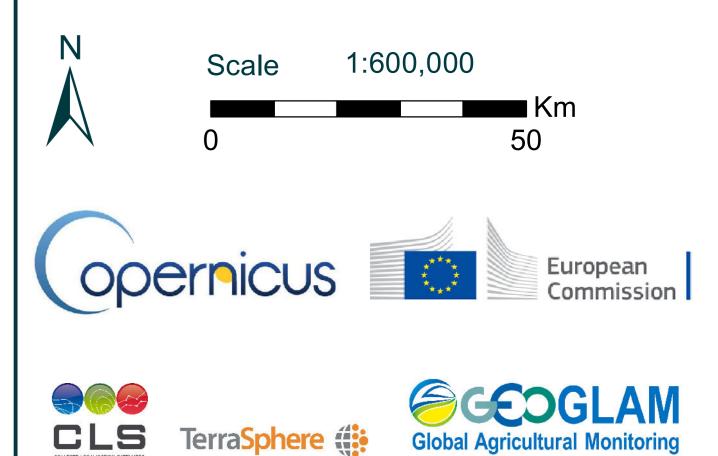

This map shows the end-of-season Crop Mask for the 2021 short rains season in Uganda using a time-series of Sentinel-2 images between September 2021 and March 2022. The map is produced by TerraSphere and CLS under contract with Copernicus Global Land Service and the European Commission Joint Research Centre, in support to national and subnational level agricultural monitoring systems in partner countries of the GEOGLAM initiative.
